POTAIN HUP 40-30 SELF-ERECTING CRANE #EQ0010752

The HUP 40-30's compact design makes erection and dismantling fast and easy with minimum effort needed from the operator. Its class-leading compact package is ideal for jobsites with limited work space, with no extra masts to handle at installation.

- Max capacity: 4.4 tons
- 15 concrete ballast slabs, 57,872 lbs
- Three-position 131 ft jib provides extra versatility and can be used in horizontal position or two raised angles of 10° and 20°
- Max HUH with horizontal jib: 84 ft/98 ft
- Max HUH at 20° raised jib: 131.2 ft
- Max load at jib end: 1.1 tons
- Footprint/outriggers: 14.8 ft x 14.8 ft
- Rear slewing radius: 8.2 ft
